

SUBJECT: “N” suffix 4 terminal Large Can SMT EEV-EB Series SMT Aluminum Electrolytic Capacitor. Replaced by “M” suffix 2 terminal Effective per below.

BULLETIN #: ECG.PG.44.062402

Date: June 24, 2002

Please NOTE that this affects the “N” suffix EB series SMT only

LAST TIME BUY: October 31, 2002

LAST TIME SHIPMENT: October 31, 2002

SUGGESTED REPLACEMENT: “M” suffix 2 Terminal SMT EB series Aluminum Electrolytic Capacitor

The “M” suffix 2 terminal SMT EB series aluminum electrolytic capacitor is the recommended replacement for the “N” suffix 4 terminal SMT EB series aluminum electrolytic capacitor

The “M” suffix 2 terminal capacitor is not an exact drop in replacement for the “N” suffix 4 terminal capacitor. There will be a difference in the mounting land pattern. Please see the attached part number cross-reference for further details. Please contact the Resident Engineers for further information.

Please notify your customers of the change.

Type:Surface Mount Type Aluminum Electrolytic Capacitor

Series:Large Can size EB series

Change to suffix "M (2-terminals)" from "N (4 terminals)"
