KVM Switch - 4-Port Desktop KVM Switch (USB)

Highlights

- USB Connections on both Console and Server side
- P758-Series KVM Cable kit required to connect to a computer
- Push Button switching on the front of the unit
- Built-in 2-Port USB hub shares two USB peripherals between attached systems
- OS independent operation - use with PCs or MACs

Description

Tripp Lite's 4-port Desktop USB KVM Switch is the optimal solution for controlling up to 4 USB computers from one keyboard, mouse, and monitor. It features keyboard and mouse emulation for error-free boot-ups and works on all operating systems. This device also supports 180MHz video resolutions up to 1920 x 1440 pixels without any noticeable degradation. It features a compact design that does not require external power, software, or complicated set-up procedures.

Applications

Small Office/Home Office (SOHO). Control up to 4 USB computers from a single keyboard, mouse, and monitor.
