HR10 SERIES SHELL SIZE 7mm PUSH-PULL CONNECTORS

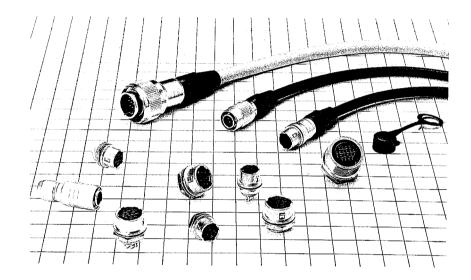

Introduction

The HR10 series connectors are push-pull coupling type micro-connectors. They have been developed in response to customers' needs for miniaturization, high density, and easy handling.

The HR10 series connectors offer light weight and assure high reliability and durability as well as easy "push-pull" operation.

You may apply the HR10 series connectors to all kinds of

small-sized electronic equipment requiring high reliability. However, these simple but refined connectors are most suitable for portable electronic equipment which requires good appearance. Typical applications are: Computers and' peripherals, medical equipment, audio equipment, video equipment, portable radio (wireless) apparatus, measuring equipment, etc.

Features

- "A LITTLE GIANT" The most compact HR10 series is as slender as a cigarette but it fits every application with well-balanced, simplified layout in limited space.
- EASY "PUSH-PULL" OPERATION
 One touch "push-pull" coupling mechanism assures 7.
 easy and quick connecting and disconnecting. You
 can couple it accurately just by pushing any part of
 the connector housing.
- POLARIZATION Five-key system permits only one way of coupling so that you can find right position to connect even when blind mating.
- 4. PROTECTION OF CONNECTION PIN A connector pin is located to avoid any damage which may be caused when blind mating.

5. HIGH DENSITY

The space-saving "push-pull" mechanism facilitates multi-installation of connectors.

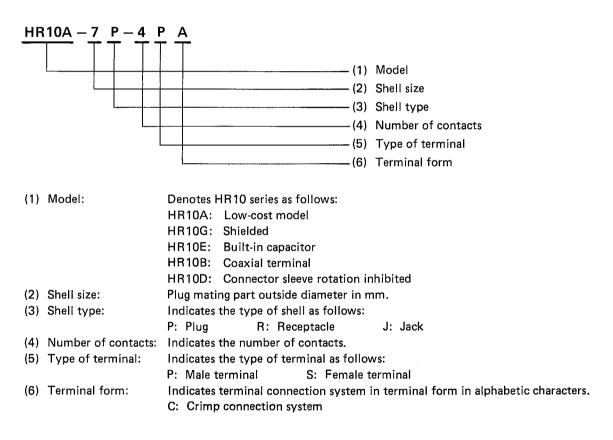

- 6. EASY WIRING AND MOUNTING No use of screws makes wiring and mounting easier.
- SIMPLE AND REFINED APPEARANCE Simple and well designed connectors with matte firuish enhance the appearance of the equipment.

Material & Finish

Main materials

Part	Material	Finish		
Shell	Zinc-alloy and brass	Satin-finished nickel plat		
Insulation	Polyamide resin or PBT resin	(Blue or black)		
Male terminal	Brass or bronze	Silver- or gold-plated		
Female terminal	Beryllium or phosphor bronze	Silver- or gold-plated		

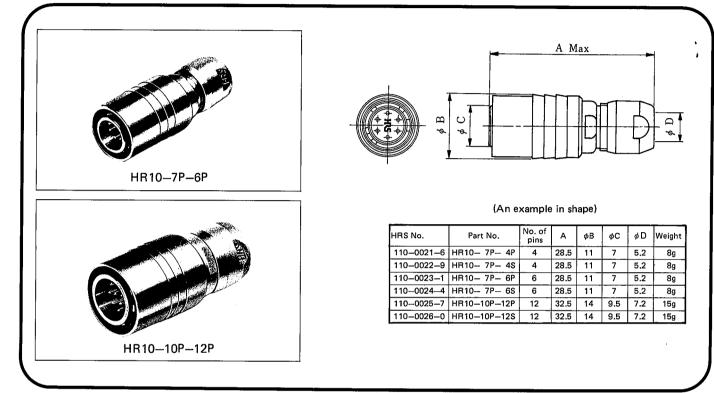

Ordering Information

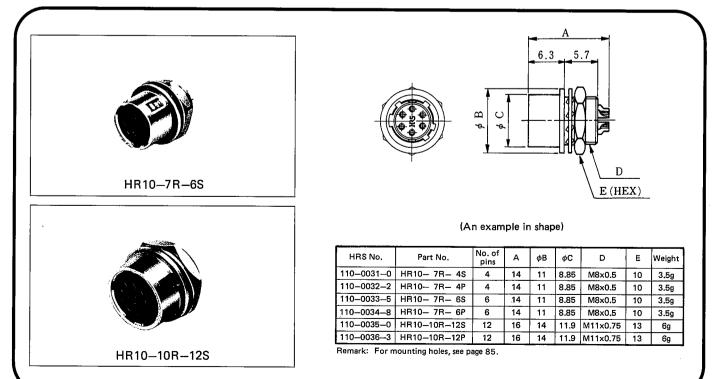

HR10 type

Gold plating is the standard for the HR10 connector terminals and silver plating is used for the terminals of other types of connectors. When using HR10 connectors combination with other types of connectors, be sure to check the plating specification.

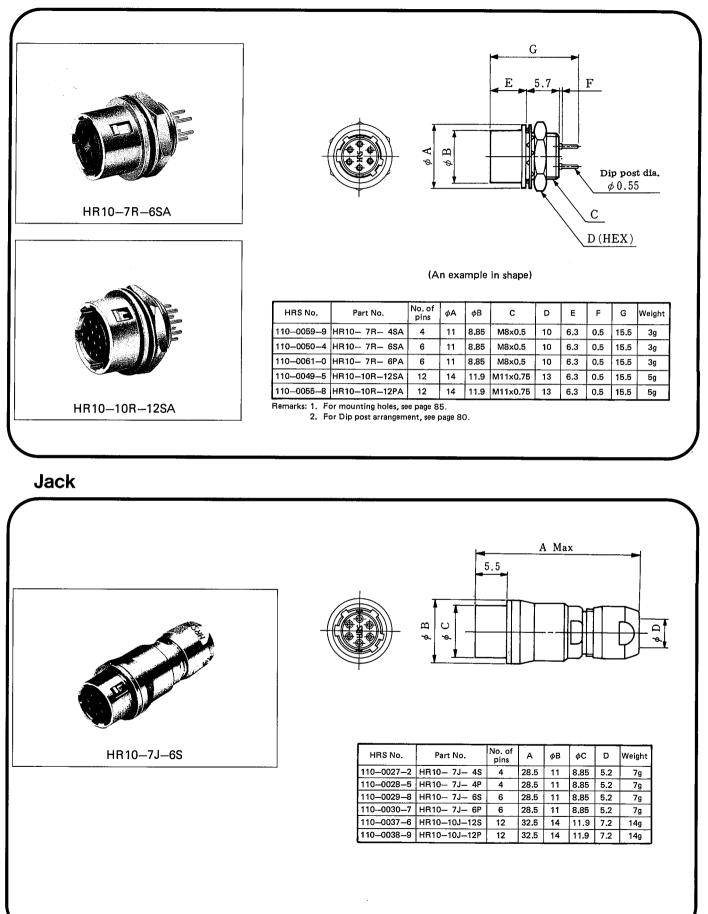

Receptacle

Receptacle (PCB Dip Type)

HR10A·10G Type

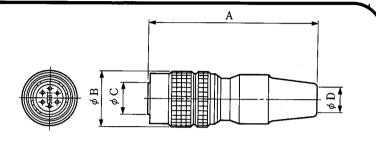

Plug (Solder Type)

HR10A-7P-6P

The model HR10A is a lowcost connector maintaining the excellent characteristics of the HR10 connector while meeting VA requirements. To ensure increased cableclamping force, the cables are crimped with a special crimping tool, and to increase cable resistance to bending, the shell is covered with a rubber bushing.

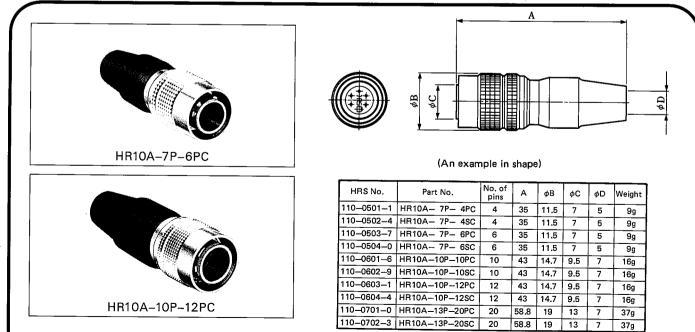

The model HR10G is a shielding connector having a built-in contact mechanism with the plug shell inside the receptacle. The standard HR10A and HR10G connector contacts are silver-plated.

Jack (Solder Type)

Jack (Crimp Type)

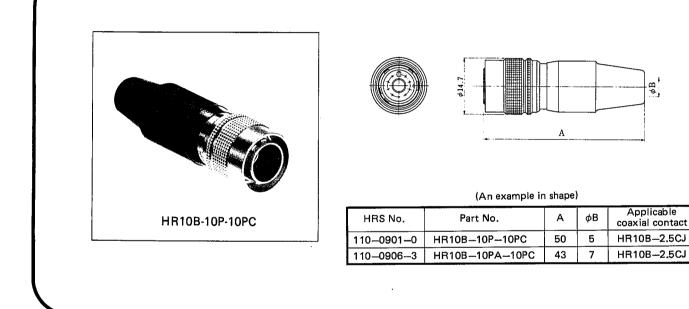

HR10B TYPE CONNECTOR

Scope

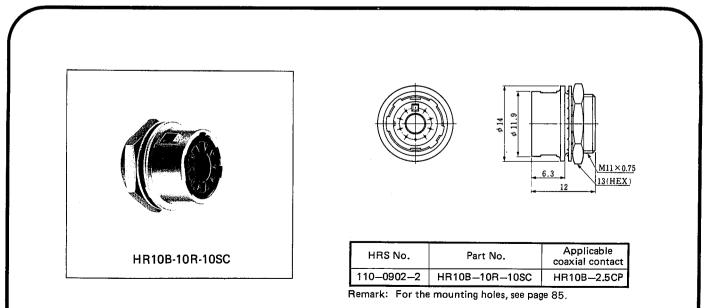

The HR10B connector combines 10 signal lines and one coaxial contact in the standard number 10 shell. Electrical performance are same as HR10A connector except coaxial

contacts. Performance specifications for the coaxial contacts are on the next page.

Plug

Receptacle

Coaxial Contacts

The coaxial contacts shown here are for use with the are inserted from the rear of the connector. Please use the

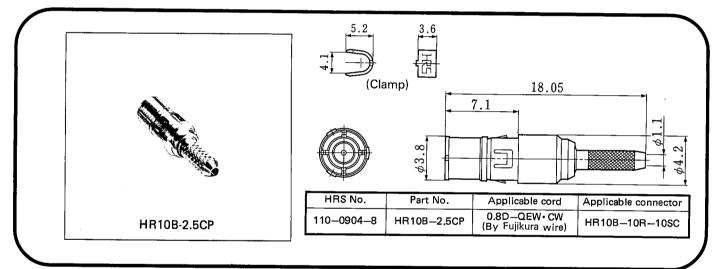

HR10B connector. These contacts have locking barbs and following information to select the correct terminals.

Material and Finish

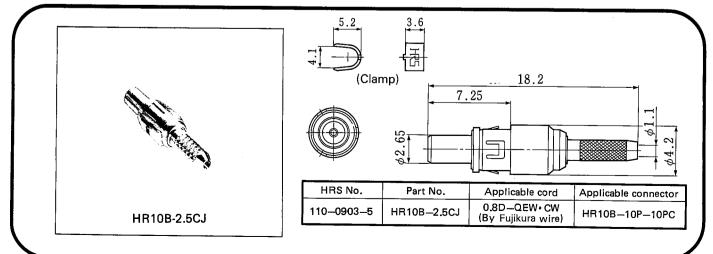

Performance

Description	Material	Finish	Description	Test Data
Plug shell	Brass	Gold plate	Impedance	50Ω
Jack shell	Brass	Gold plate	Insulation resistance	1000MΩ or more at DC250V
Insulator	Tetrafluoride resin	pidto	Contact resistance	Center 6.5m Ω or less and outer 4m Ω or less at DC1/
Male pin	Phosphor bronze	Gold plate	Withstanding voltage	AC250V r.m.s. for 1 minute
Female pin	Beryllium copper	Gold plate	V.S.W.R.	1.3 or less for 0 ~ 1000MHz
			Pull force	4.9N 500gf or more

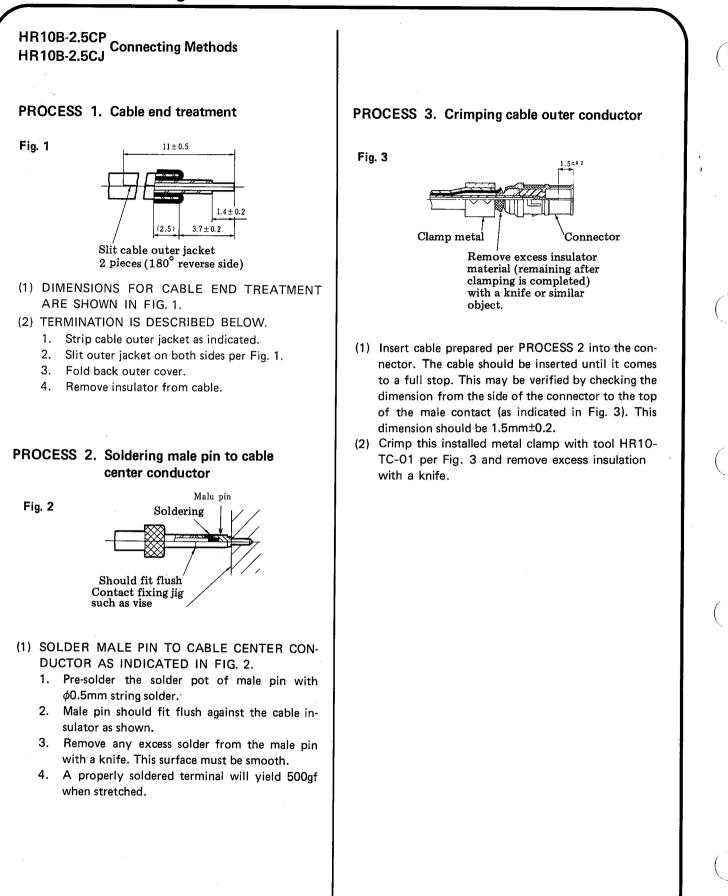

Plug

Jack

Cable Connecting Methods

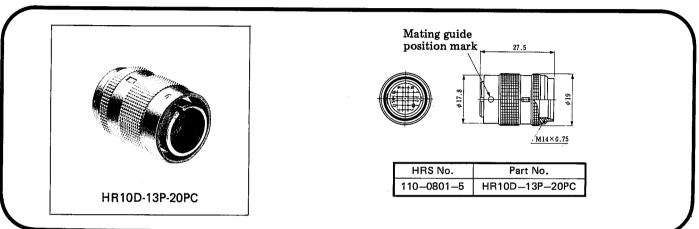

HR10D TYPE CONNECTOR

Scope

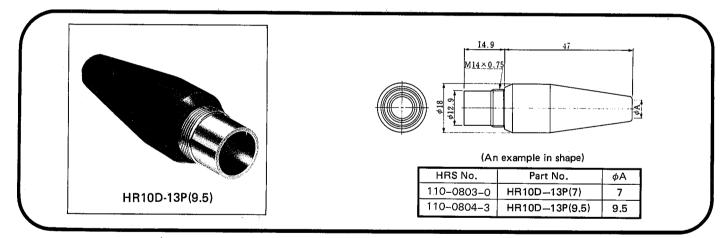

The HR10D connector incorporates a guide key and slot to prevent rotation of the coupling sleeve. A visual mark is used on the sleeve to aid in coupling operations.

Be careful that HR10D connector is not compatible with HR10, HR10A and HR10G.

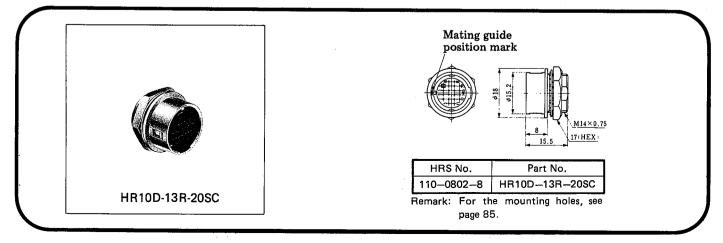

Plug

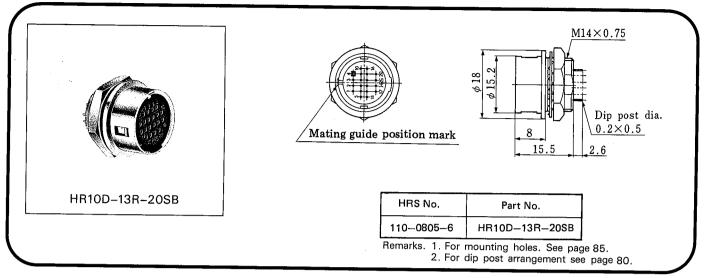

Hood

Receptacle (Crimp Type)

Receptacle (Dip Type)

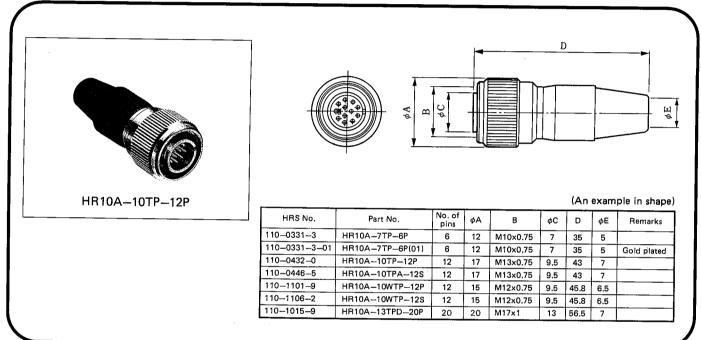

HR10A-[]T TYPE (Threaded Coupling Type)

Scope

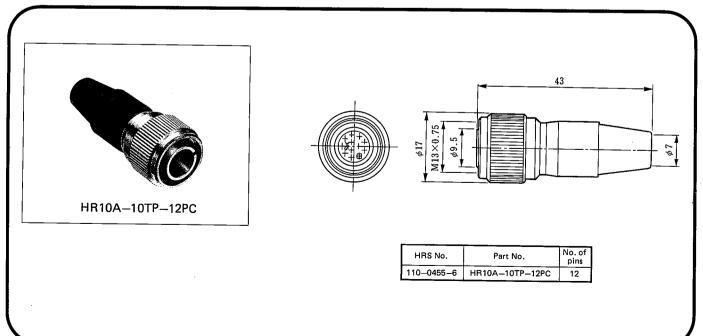

HR10A-()T connector is a new product having a threaded coupling locking mechanism. Electric perfor-

mance is same as HR10 and HR10A push-pull locking type connector.

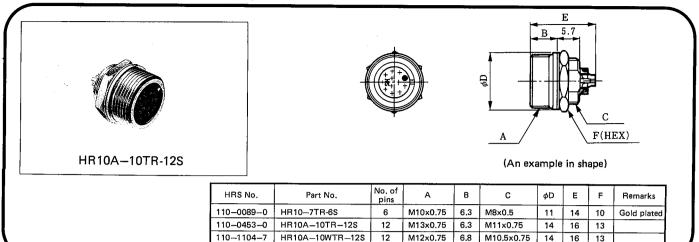

Plug (Solder Type)

Plug (Crimp Type)

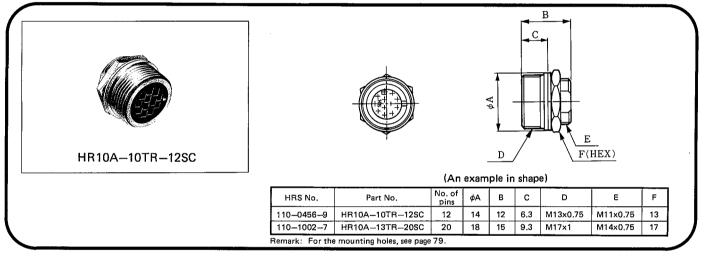

Receptacle (Solder Type)

Remark: For the mounting holes, see page 79 However, 7TR size shall be referred to page 85 on the shell size 7.
