

Model #: P102-000

Computer Cable, AT Serial Gold Adapter DB9F to DB25F

Highlights

Changes a DB9 Male connector into a DB25 Female Connector Fully shielded against EMI/RFI interference

Description

Tripp Lite's serial adapter has gold plated connectors. It will change a DB9M connector or port into a DB25F connector or port to accept a DB25M cable or device. Gold plated copper contacts provide maximum conductivity and keep data loss to a minimum. 28 AWG stranded tinned copper conductors are individually insulated in polypropylene. This minimizes cross talk and ensures high-speed, error-free transmission. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

System Requirements

DB9M serial port on a PC
