

XA CONNECTOR

Disconnectable Crimp style connectors

Features

• Locking device

The housing has a locking device to securely hold the header, preventing accidental disconnection because of external forces that might result from the routing of wires during assembly process or of vibration.

• Solder crack preventive material

Header wafer is made of glass-filled PA66 nylon thus effective against the solder crack problem.

• Low insertion force

Header pins are round and reflow-treated, which provides low insertion force.

• Insertion guide mechanism

Header has housing insertion guides for easy and secure insertion.

• Applicable to automatic board mounting machine

Radial taped or stick-mounted headers are also available for automatic component insertion machine.

• Polarizing boss

Headers with polarizing bosses are also available.

Specifications

- Current rating: 3A AC DC (AWG#20)
 - Voltage rating: 250V AC DC
 - Temperature range: -25°C to +85°C
(including temperature rise in applying electrical current)
 - Relative humidity: 0 to 80%
 - Contact resistance: Initial value/10m Ω max.
After environmental testing/20m Ω max.
 - Insulation resistance: 1,000M Ω min.
 - Withstanding voltage: AC 1,000V/minute
 - Applicable wire: AWG #28 to #20
 - Applicable PC board thickness: 1.6mm (.063")
- * Contact JST for details.

Standards

- Recognized E60389
- 1 Certified LR20812
- 2 R9851220

Taping specifications of through-hole type shrouded header

XA CONNECTOR

Packaging specifications of through-hole type shrouded header

Package type	Flat pack (zigzag folded)
Distance between folds	24 indexing holes per fold (304.8mm/12")
Box size	(316 X 45 X 330mm) 12.4"(W) X 1.8"(D) X 13.0"(H)
Distance between the end of the tape and the first connector's center line (either end)	19.05mm(.750")

Products of different packaging specifications are also available.
Contact JST for details.

Through-hole type PC board layout (viewed from component side) and Assembly layout

Dimension D: Refer to the Model No. chart.

Note:

1. Tolerances are non-Cumulative: $\pm 0.05\text{mm} (\pm .002")$ for all centers.
2. Hole dimensions differ according to the kind of PC board and piercing method.
The dimensions above should serve as a guide line. Contact JST for details.

Note: The products listed above are supplied on embossed tape.

Taping specifications of SMT type shrouded headers

Note:

- Specifications conform to JIS C 0806. The tape width, connector recess dimensions, etc. are determined by the number of circuits and external shape of the connector to be loaded.
- Specifications are subject to change without prior notice.
