

SIDC06D120F6

Fast switching diode chip in EMCON-Technology

FEATURES:

- 1200V EMCON technology 120 µm chip
- soft, fast switching
- low reverse recovery charge
- small temperature coefficient

This chip is used for:

EUPEC power modules and discrete devices

Applications:

SMPS, resonant applications, drives

Chip Type	V_R	I _F	Die Size	Package	Ordering Code
SIDC06D120F6	1200V	5A	2.45 x 2.45 mm ²	sawn on foil	Q67050-A4183- A001

MECHANICAL PARAMETER:

Raster size	2.45 x 2.45				
Area total / active	6 / 3.24	mm ²			
Anode pad size	1.73 x 1.73				
Thickness	120	μm			
Wafer size	150	mm			
Flat position	180	deg			
Max. possible chips per wafer	2520 pcs				
Passivation frontside	Photoimide				
Anode metallisation	3200 nm AlSiCu				
Cathode metallisation	1400 nm Ni Ag –system suitable for epoxy and soft solder die bonding				
Die bond	electrically conductive glue or solder				
Wire bond	AI, ≤500μm				
Reject Ink Dot Size	Ø 0.65mm ; max 1.2mm				
Recommended Storage Environment	store in original container, in dry nitrogen, < 6 month at an ambient temperature of 23°C				

SIDC06D120F6

Maximum Ratings

Parameter	Symbol	Condition	Value	Unit
Repetitive peak reverse voltage	V_{RRM}		1200	V
Continuous forward current limited by	I _F		5

Attention please!

The information herein is given to describe certain components and shall not be considered as warranted characteristics.

Terms of delivery and rights to technical change reserved.

We hereby disclaim any and all warranties, including but not limited to warranties of non-infringement, regarding circuits, descriptions and charts stated herein.

Infineon Technologies is an approved CECC manufacturer.

Information

For further information on technology, delivery terms and conditions and prices please contact your nearest Infineon Technologies Office in Germany or our Infineon Technologies Representatives world-wide (see address list).

Warnings

Due to technical requirements components may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies Office.

Infineon Technologies components may only be used in life-support devices or systems with the express written approval of Infineon Technologies, if a failure of such components can reasonably be expected to cause the failure of that life-support device or system, or to affect the safety or effectiveness of that device or system. Life support devices or systems are intended to be implanted in the human body, or to support and / or maintain and sustain and / or protect human life. If they fail, it is reasonable to assume that the health of the user or other persons may be endangered.
