

SAW Components

SAW filter

Bluetooth

Series/type: B9410

Ordering code: B39242B9410K610

Date: April 15, 2008

Version: 2.2

© EPCOS AG 2008. Reproduction, publication and dissemination of this data sheet, enclosures hereto and the information contained therein without EPCOS' prior express consent is prohibited.

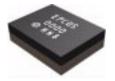

SAW Components B9410
SAW filter 2441.75 MHz

Data Sheet

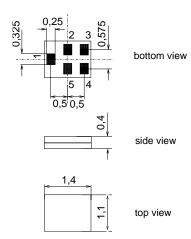

Application

- Low-loss RF filter for mobile telephone bluetooth systems
- Impedance transformation from 50 Ω to 150 Ω
- Unbalanced to balanced operation
- Very low insertion attenuation
- Low amplitude ripple
- Usable passband 83.5 MHz

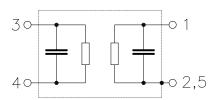

Features

- Package size 1.4 x1.1 x 0.4 mm³
- Package code QCS5F
- RoHS compatible
- Approximate weight 0.003 g
- Package for Surface Mount Technology (SMT)
- Ni, gold-plated terminals
- Electrostatic Sensitive Device (ESD)

Pin configuration

- 1 Input unbalanced
- 3,4 Output balanced
- 2,5 To be grounded

SAW Components B9410 2441.75 MHz **SAW** filter

Data Sheet

Characteristics

= -20 °C to +75 °C Temperature range for specification:

Terminating source impedance:

 $\rm Z_{S} = 50 \, \Omega$ $\rm Z_{L} = 150 \, \Omega$ || 11 nH (balanced) Terminating load impedance:

	min.	typ. @ 25 °C	max.				
Center frequency f _C	_	2441.75		MHz			
$\begin{array}{cccc} \textbf{Maximum insertion attenuation} & \alpha_{\text{max}} \\ 2400.0 & & 2483.5 & \text{MHz} \end{array}$		2.0	2.6	٩D			
	_	2.0	2.6	dB			
Amplitude ripple (p-p) Δα 2400.0 2483. 5 MHz	_	0.6	1.5	dB			
Input VSWR 2400.0 2483. 5 MHz	_	1.8	2.1				
Output VSWR 2400.0 2483. 5 MHz	_	1.7	2.1				
Common mode suppression 2400.0 2483.5 MHz	22	25		dB			
Output amplitude balance ($ S_{31}/S_{21} $)							
2400.0 2483.5 MHz	-1.5	-0.5/0.8	1.5	dB			
Output phase balance $(\phi(S_{31}) - \phi(S_{21}) + 180^{\circ})$							
2400.0 2483.5 MHz	- 10	-4/+4	10	•			
Attenuation α							
0.0 960.0 MHz	55	58	_	dB			
960.0 1850.0 MHz	40	47	_	dB			
1850.0 1990.0 MHz	40 ¹⁾	45	_	dB			
1990.0 2170.0 MHz	40	45	_	dB			
2170.0 2250.0 MHz	20	40	_	dB			
2650.0 2800.0 MHz	20	31		dB			
2800.0 4000.0 MHz 4000.0 6000.0 MHz	25 30	36 46	_ 	dB dB			

¹⁾ except 1 narrow spike at ~1886 MHz with typical 41 dB

For questions on technology, prices and delivery please contact the Sales Offices of EPCOS AG or the international Representatives.

Due to technical requirements components may contain dangerous substances. For information on the type in question please also contact one of our Sales Offices.

Important notes

The following applies to all products named in this publication:

- Some parts of this publication contain statements about the suitability of our products for certain areas of application. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application. As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
- 2. We also point out that in individual cases, a malfunction of passive electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of a passive electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of a passive electronic component.
- 3. The warnings, cautions and product-specific notes must be observed.
- 4. In order to satisfy certain technical requirements, some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as "hazardous"). Useful information on this will be found in our Material Data Sheets on the Internet (www.epcos.com/material). Should you have any more detailed questions, please contact our sales offices.
- 5. We constantly strive to improve our products. Consequently, the products described in this publication may change from time to time. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order. We also reserve the right to discontinue production and delivery of products. Consequently, we cannot guarantee that all products named in this publication will always be available. The aforementioned does not apply in the case of individual agreements deviating from the foregoing for customer-specific products.
- Unless otherwise agreed in individual contracts, all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI).
- 7. The trade names EPCOS, BAOKE, Alu-X, CeraDiode, CSSP, DSSP, MiniBlue, MKK, MLSC, MotorCap, PCC, PhaseCap, PhaseMod, SIFERRIT, SIFI, SIKOREL, SilverCap, SIMDAD, SIMID, SineFormer, SIOV, SIP5D, SIP5K, ThermoFuse, WindCap are trademarks registered or pending in Europe and in other countries. Further information will be found on the Internet at www.epcos.com/trademarks.
