

NEC's 870 MHz GaAs CATV 20 dB PUSH-PULL AMPLIFIER

FEATURES

- **GaAs ACTIVE DEVICES**
- **LOW DISTORTION**
- **HIGH LINEAR GAIN:**
MC-7834-KC - GL = 21 dB MIN at f = 870 MHz
- **LOW RETURN LOSS**
- **LOW GAIN CHANGE OVER TEMPERATURE**
- **SPECIFIED FOR 79, 110, and 132 CHANNELS PERFORMANCE**
- **HIGH RELIABILITY AND RUGGEDNESS:**
Withstands environmental extremes as well as Silicon devices (Surge, ESD, Etc.)

DESCRIPTION

NEC's MC-7834-KC is a GaAs Multi-Chip Module designed for use as input stages in CATV applications up to 870 MHz. Because this unit is a GaAs device, it has low distortion, low noise figure, and low return loss across the entire frequency band. The MC-7834-KC is similar to NEC's standard push-pull devices, but with the higher current allows better distortion performance, especially X-Mod.

Like the previous generation of products, these devices survive such hazards as surge and ESD as well as their silicon competitors, but deliver superior performance with low DC current required.

All devices are assembled and tested using fully automated equipment to maximize consistency in part to part performance, and reliability is assured by NEC's stringent quality and process control procedures. These parts come in industry compatible hybrid packages.

ORDERING INFORMATION

PART NUMBER	PACKAGE	QUANTITY
MC-7834-KC-AZ	7-pin special with heatsink (Pb-Free)	25 pcs max/ Tray

NOTES ON CORRECT USE

1. The space between PC board and root of the lead should be kept more than 1 mm to prevent undesired stress on the lead and also should be kept less than 4 mm to prevent undesired parasitic inductance.

Recommended space is 2.0 to 3.0 mm typical.

2. Recommended torque strength of the screw is 59 to 78 Ncm.

3. Form the ground pattern as wide as possible to minimize ground impedance. (to prevent undesired oscillation)

All the ground pins must be connected together with wide ground pattern to decrease impedance difference.

RECOMMENDED SOLDERING CONDITIONS

This product should be soldered in the following recommended conditions. Other soldering methods and conditions than the recommended conditions are to be consulted with our sales representatives.

Soldering Method	Soldering Conditions	Condition Symbol
Pin Part Heating	Pin area temperature: less than 260°C ¹ Hour: Within 2 sec./pin	-

Note:

1. The point of pin part heating must be kept at a distance of more than 1.2 mm from the root of lead.

Life Support Applications

These NEC products are not intended for use in life support devices, appliances, or systems where the malfunction of these products can reasonably be expected to result in personal injury. The customers of CEL using or selling these products for use in such applications do so at their own risk and agree to fully indemnify CEL for all damages resulting from such improper use or sale.

Subject: Compliance with EU Directives

CEL certifies, to its knowledge, that semiconductor and laser products detailed below are compliant with the requirements of European Union (EU) Directive 2002/95/EC Restriction on Use of Hazardous Substances in electrical and electronic equipment (RoHS) and the requirements of EU Directive 2003/11/EC Restriction on Penta and Octa BDE.

CEL Pb-free products have the same base part number with a suffix added. The suffix –A indicates that the device is Pb-free. The –AZ suffix is used to designate devices containing Pb which are exempted from the requirement of RoHS directive (*). In all cases the devices have Pb-free terminals. All devices with these suffixes meet the requirements of the RoHS directive.

This status is based on CEL’s understanding of the EU Directives and knowledge of the materials that go into its products as of the date of disclosure of this information.

Restricted Substance per RoHS	Concentration Limit per RoHS (values are not yet fixed)	Concentration contained in CEL devices	
		-A	-AZ
Lead (Pb)	< 1000 PPM	Not Detected	(*)
Mercury	< 1000 PPM	Not Detected	
Cadmium	< 100 PPM	Not Detected	
Hexavalent Chromium	< 1000 PPM	Not Detected	
PBB	< 1000 PPM	Not Detected	
PBDE	< 1000 PPM	Not Detected	

If you should have any additional questions regarding our devices and compliance to environmental standards, please do not hesitate to contact your local representative.
