

PDP SPM<sup>TM</sup>

# FVP12030IM3LEG1 Energy Recovery

#### **Feature**

- Use of high speed 300V IGBTs with parallel FRDs
- · Single-grounded power supply by means of built-in HVIC
- Sufficient current driving capability for IGBTs due to adding a buffer
- Isolation rating of 1500Vrms/min.
- Low leakge current due to using an insulated metal substrates

### **Applications**

• Energy Recovery Part of a PDP (Plasma Display Panel)

### **General Description**

It is an advanced smart power module(SPM<sup>TM</sup>) that Fairchild has newly developed and designed to provide very compact and optimized performance for the energy recovery circuit of PDP driving system. It combines optimized circuit protection and drive matched to low-loss and high speed IGBTs. Under voltage lock-out protection function enhances the system reliability . The high speed built-in HVIC provides opto-couplerless single power supply IGBT gate driving capability that futher reduce the overall system size of PDP sustaining boards.

# **Pin Descriptions**

| Pin Number | Pin Name | Pin Descriptions   |  |
|------------|----------|--|--|
| 1          | COML     | Low-side Signal Ground   |  |
| 2          | VINL     | Low-side Signal Input  |  |
| 3          | VCCL     | Low-side Supply Voltage for HVIC                                 |  |
| 4          | VBL      | Low-side Floating Supply Voltage for Buffer IC and IGBT Driving  |  |
| 5          | GL       | Low-side Gate  |  |
| 6          | VSL      | Low-side Floating Ground for Buffer IC and IGBT Driving          |  |
| 7          | IGND     | IMS Ground   |  |
| 8          | COMH     | High-side Signal Ground  |  |
| 9          | VINH     | High-side Signal Input   |  |
| 10         | VCCH     | High-side Supply Voltage for HVICg                               |  |
| 11         | VBH      | High-side Floating Supply Voltage for Buffer IC and IGBT Driving |  |
| 12         | GH       | High-side Gate   |  |
| 13         | VSH      | High-side Floating Ground for Buffer IC and IGBT Driving         |  |
| 14         | СН       | High-side IGBT Collector   |  |
| 15         | EH       | High-side IGBT Emitter   |  |
| 16         | KH       | High-side Diode Cathode  |  |
| 17         | AL       | Low-side Diode Anode   |  |
| 18         | CL       | Low-side IGBT Collector  |  |
| 19         | EL       | Low-side IGBT Emitter  |  |

#### **DISCLAIMER**

FAIRCHILD SEMICONDUCTOR RESERVES THE RIGHT TO MAKE CHANGES WITHOUT FURTHER NOTICE TO ANY PRODUCTS HEREIN TO IMPROVE RELIABILITY, FUNCTION, OR DESIGN. FAIRCHILD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE APPLICATION OR USE OF ANY PRODUCT OR CIRCUIT DESCRIBED HEREIN; NEITHER DOES IT CONVEY ANY LICENSE UNDER ITS PATENT RIGHTS, NOR THE RIGHTS OF OTHERS. THESE SPECIFICATIONS DO NOT EXPAND THE TERMS OF FAIRCHILD'S WORLDWIDE TERMS AND CONDITIONS, SPECIFICALLY THE WARRANTY THEREIN, WHICH COVERS THESE PRODUCTS.

### LIFE SUPPORT POLICY

FAIRCHILD'S PRODUCTS ARE NOT AUTHORIZED FOR USE AS CRITICAL COMPONENTS IN LIFE SUPPORT DEVICES OR SYSTEMS WITHOUT THE EXPRESS WRITTEN APPROVAL OF FAIRCHILD SEMICONDUCTOR CORPORATION.

#### As used herein:

- Life support devices or systems are devices or systems which, (a) are intended for surgical implant into the body, or (b) support or sustain life, and (c) whose failure to perform when properly used in accordance with instructions for use provided in the labeling, can be reasonably expected to result in significant injury to the user.
- A critical component is any component of a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or system, or to affect its safety or effectiveness.

|--------------------------|------------------------|--|
| Advance Information      | Formative or In Design | This datasheet contains the design specifications for product development. Specifications may change in any manner without notice.   |
| Preliminary              | First Production       | This datasheet contains preliminary data; supplementary data will be published at a later date. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve design. |
| No Identification Needed | Full Production        | This datasheet contains final specifications. Fairchild Semiconductor reserves the right to make changes at any time without notice to improve design.   |
| Obsolete                 | Not In Production      | This datasheet contains specifications on a product that has been discontinued by Fairchild semiconductor. The datasheet is printed for reference information only.                                      |
