

The low cost M-Series utilizes the hydraulic magnetic principle which provides accurate and reliable circuit protection even when exposed to extremely hot and/or cold application environments.

Available in a choice of rocker actuator styles and colors, push button, push-pull, paddle, and baton style handle actuators, the Visi-Rocker® two-color actuators as well as non-illuminated or illuminated rocker versions with LED or neon bulbs. The exclusive Rockerguard[®] bezel helps prevent inadvertent actuation. "Wiping" contact design insures long term reliability. Various styling options allow design flexibility.

Typical applications include power supplies, medical equipment, and telecommunications equipment. In addition, these breakers meet CSA Standard 22.2 No. 100 for the Generator & Welder markets.

Only the outside surfaces of the case
and the handles may be cleaned with
detergents or alcohol. Organic (hydro-
carbon based) solvents are not rec-
ommended because they attack plas-
tics. Caution should be taken when
solvents are used to clean and
remove flux from terminals. Lubricants
should not be introduced into the han-
dle/bushing openings.

- Notes:
- One actuator is located in the center of each multi-pole breaker. Actuator codes V & W 1 limited to single pole breakers only.
- One Auxiliary Switch is supplied per breaker. On two-pole breakers, standard Auxiliary Switch mounting is in pole one. Auxiliary Switch option limited to Series Trip and Switch Only circuits. Not available with Back Connected Screw or Push-in Stud terminals. Mates with AMP .058" diameter pin receptacles including 60983-1 (gold plated) and 2
- 3 60983-3 (tin plated).
- 4
- 5
- Screw terminals or Push-in Stud recommended above 20 amps. Actuator color is only visible in the OFF position on Push-Pull actuators. All units have one hex nut installed on bushing for use behind the panel. 6 7
- Other colors available. Consult factory. Not available with UL489A Listed breakers. 8
- Not available with UL489A Listed breakers. TUV certified to 25 amps. UL Recognized, CSA Accepted and UL Listed to 30 amps. Terminal code A available with circuit codes A & B only. Printed circuit board available with UL recognized approval only. Auxiliary switch (flat Q.C.) available with UL recognized approvals only.
