• All measurements are made at an ambient temperature of 25°C. I_{pp} applies to -40°C through +85°C temperature range.
• I_{pp} is a repetitive surge rating and is guaranteed for the life of the product.

• Listed SIDACtor devices are bidirectional. All electrical parameters and surge ratings apply to forward and reverse polarities.
• V_S is measured at 100 V/ μ s.
• Off-state capacitance is measured at 1MHz with a 2 V bias.
