3100 Series Hermetic Thermostats

Actual product appearance may vary.

Features

Hermetically sealed Tight tolerances Tight differentials

Potential Applications

Computers
Medical electronics
Power supplies
Industrial controls
Test equipment
Infotech

Description

The 3100 Series consists of a single pole, single throw switch activated by a snapaction bimetal disc. Temperature calibrations are pre-set at the factory and each unit is 100% thermally and mechanically inspected. It is available to open or close on temperature rise. The case is laser welded to form a hermetically-sealed steel housing with a glass-to-metal seal at the terminal junction. It is manufactured and tested to meet or exceed critical commercial and industrial specifications.
