## TRI－150R Adjustable Tripod

## Product Overview

The TDK RF Solutions TRI－150R tripod is designed specifically for mounting antennas and video cameras in EMC test environments．The tripod is constructed of durable，non－conductive，commer－ cial grade fiberglass and plastic that provide the necessary stability while allowing for portability．

The tripod mast easily adjusts from 100 cm to 150 cm in height，and supports equipment up to 45 kg ． The sturdy，fixed－length fiberglass legs feature adjustable foot pads to accommodate uneven floor surfaces．The legs fold inward for storage or transportation between test sites．

The tripod also features an integrated level to allow quick and accurate positioning．

The TRI－150R is available with a variety of antenna and video camera mount adapters to meet your requirements．

## Application

－Antenna or video camera mounting

## Features

－1／4－20 screw mount adapter（standard）
－Supports up to 45 kg （ 100 lbs ．）
