Messrs. Digi-Key

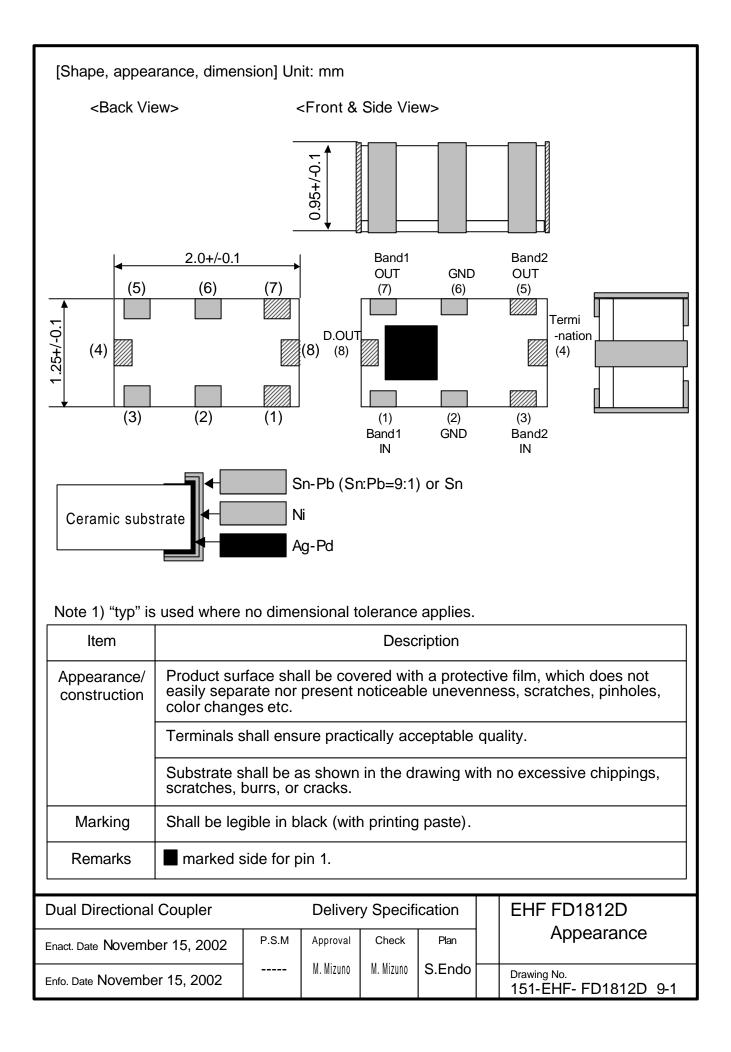

Issue No.: PC-02-053Date of issue : November 15, 2002Classification :■ New □ Change □ Renewal

## **Delivery Specification**

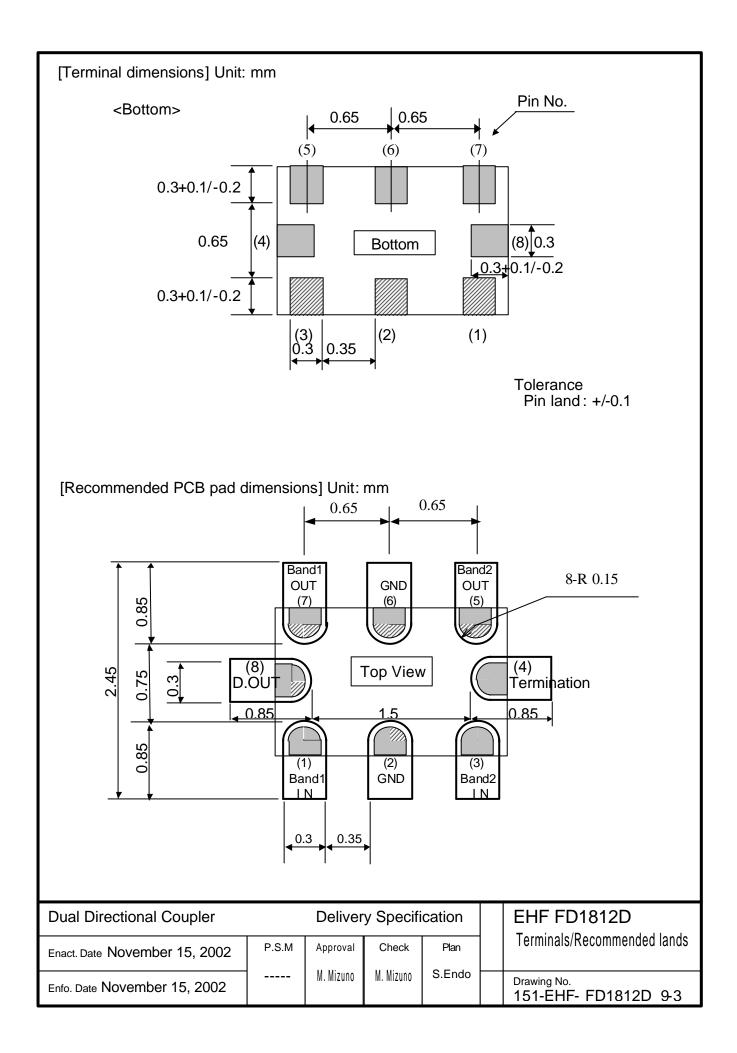

Product Description	: Dual Band Directional Coupler
Product Part Number	: EHFFD1812D
Classification of Spec	: Individual Product Specification
Applications	: Cellular phone
	For other applications, contact the undersigned in advance.
Term of Validity	: November 14, 2007 from the date of issue.

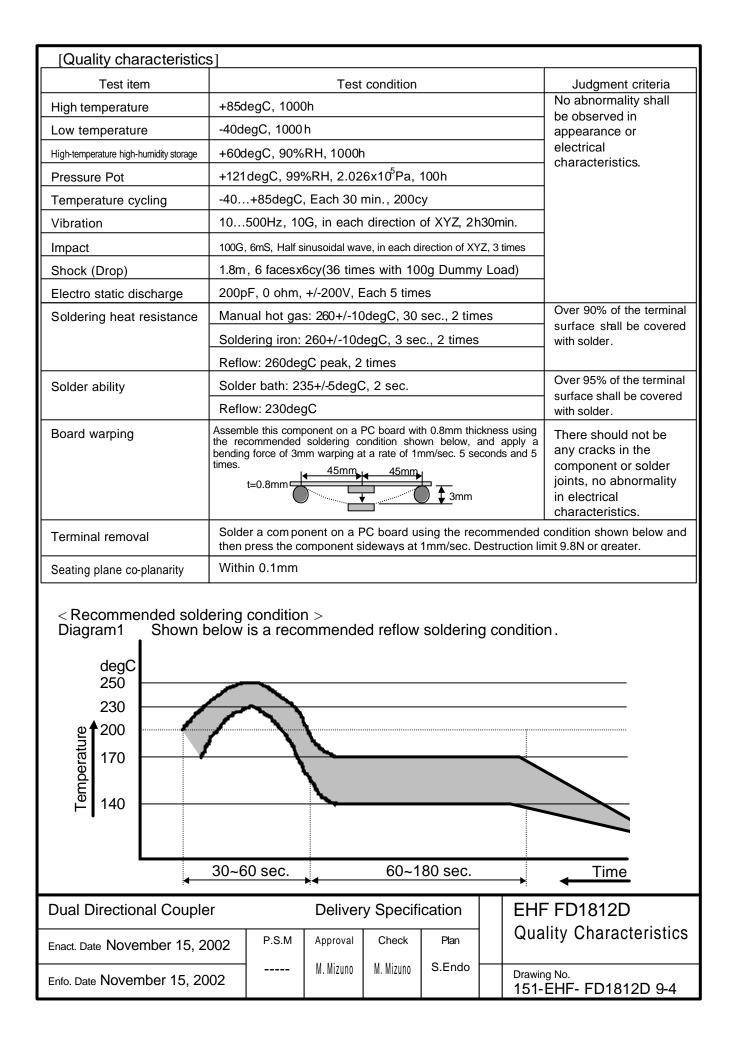

CUSTOMER USE ONLY	Receipt Record#:
This was certainly received by us. 1(one) copy is being returned to you.	Date of receipt:

## [Cautions for use]

(1) Operating a product over the maximum rating for even a moment may result in a	а
product failure or breakage. Never use a product in such a condition that it may	
cause a safety problem.	

- (2) Opening or short-circuiting the product terminals or inserting a product in the reverse orientation while power is being supplied may cause a breakage. Always avoid such circumstances.
- (3) Operations in a corrosive gas atmosphere or improper environments such as hightemperature, high-humidity or dewy conditions may lead to product performance deterioration, a breakage, a change in appearance etc. Please avoid such conditions, as they are unsafe.
- (4) Always ground the soldering iron or soldering bath used for assembly operation to avoid any excessive voltage applied to a product.
- (5) After soldering with solder bridges, incomplete soldering or in the reverse orientation, supplying power may result in a product breakage. Please confirm the soldered condition before supplying power to the product.
- (6) Excessive stress on the terminals may cause a contact failure or performance deterioration. Please use caution.
- (7) Please provide a fail-safe provision in the product you design by taking any failure of our product into consideration.
- (8) This product does not include a DC-cutting device. Application of a DC Current may cause product deterioration or breakage.
  - \* If any question arises about the safety of this product, please contact us immediately with a request for an engineering examination.

## [Remarks]

- \*1: All of the materials used in this product are those listed as the existing chemical substances based on the "Law for examination and regulation of manufacture of chemical substances".
- \*2: The production process of this product does not use any ozone-depleting chemicals (OZC) regulated by the Montreal Protocol.
- \*3: Validity of this specification is 5 years from the date of issue, but the validity is considered on going unless any changes are made.
