ROVING NETWORKS
WIRELESS FOR LESS

BluePlug™   Bluetooth™ USB Adapter

Roving Networks, a leading developer of wireless intelligent network appliances, introduces the BluePlug Bluetooth USB adapter. This device gives any PC, laptop, or Apple iMAC computer Bluetooth capabilities.

True Plug-and-play

Smaller than a stick of gum, BluePlug easily attaches to USB ports. BluePLug is auto detected by Microsoft Windows XP /SP2 and Apple iMAC computers.

Bluetooth V 2.0 with high speed EDR

Supporting the latest wireless technology, BluePlug can transfer data at 2Mbits/s. This device is also compatible with Bluetooth 1.1 and 1.2, assuring a hassle-free user experience.

Applications

Cable replacement with Blueport II and Blueport XP adapters.

PC data acquisition with BlueSentry Sensor adapters.

PDA, cell phone sync. And file transfer.

Internet Access via BT cell phone or BT access point.

Printing to BT printers
