### Product Overview

The SkyeModule™ M9 is the world's smallest, globally compliant UHF module. Its one-of-a-kind combination of high performance, security, and cost/space/power efficiency makes it the industry's price per performance leader, delivering the following benefits:

**Ease of integration** by using the SkyeAPI, a single library that abstracts, simplifies, and automates tag and protocol-specific functions from the host system.

**Investment protection** through SkyeTek's Advanced Universal Reader Architecture (AURA) permitting upgrading of modules in the field to grow with the evolution and cost savings in tag and reader technologies.

**Tagnostic®** support for more EPC Class 1 Gen 1/2 and ISO 18000-6B tags than any other comparable reader allowing customers to fully optimize their application.

**TagIQ™** that recognizes the unique characteristics of each tag so that read/write performance is maximized for each individual tag type.

**Global SKU** that provides regulatory pre-scan certification for major markets including FCC, ETSI (302 208), Korea, Taiwan, Australia/New Zealand, Singapore & Hong Kong.

**Unparalleled size** that is half the size of a typical business card.

**Performance optimization** achieved through best-in-class power control (10 – 27dBm), noise reduction technology, and power management – essential for embedded applications.

**Industry's first standards-based UHF security.** Industry-leading privacy protection and anti-counterfeiting/anti-tampering available on any C1G2 tag with user memory.

**Enhanced reliability** through anti-collision and dense reader mode capability.

**Unprecedented price-performance and TCO,** best exemplified by ReaderWare and ReaderDNA licensing which allows customers to manufacture modules at cost.

### Applications

The SkyeModule M9 has been created specifically for several applications that share common requirements for tag support, protocol, performance, and security. The M9 is an ideal solution for:

- Product Authentication and Anti-counterfeiting
- Handheld Reading/Encoding
- Inventory Management
- Printing and Encoding
