

The RSF40 series is designed as a compact internal fitting device, with a wide range of options, making this ideal for size sensitive applications. Mounting of this series requires access to the inside of the tank.

Typical applications include vending machines, commercial washing machines and evaporator units.

They are manufactured in a variety of materials, with a choice of gasket materials, to suit most commonly used liquids.

The switch action may be reversed by rotating the device through 180°.

Some of these types are also available with 1/2" BSF thread.

- **Compact design**
- **Reliable reed switch contacts**
- **Available in Nylon, Acetal, Polypropylene or PPS**
- **WRAS approval**
- **Many variants are UL recognised components file number E171218**
