

Description

- HDPE durAstatic Bottles by Vermason are low charging and are designed to protect your valuable static sensitive printed circuitry
- No migratory additives - reduces the chance for contamination from the bottle
- Highly visible with ESD symbol, allowing people to immediately know the bottle is ESD protective
- Long lasting low charging properties:
RTT: $<1 \times 10^{12}$ ohms
<10 second charge decay, tested per IEC 61340-5-1:1998
- "Flask" style shape provides stability
- Dispenses approximately 2cc of liquid with each pump
- Genuine Made in America Menda pump - accept no substitutes
- Bottles are made in the UK

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." (ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity)

35360	4 oz. Bottle, One-Touch Pump
35559	4 oz. Bottle, Pure-Touch Pump
35354	6 oz. Bottle, One-Touch Pump
35540	6 oz. Bottle, Pure-Touch Pump
35720	6 oz. Bottle, Take-Along Pump
35815	6 oz. Bottle, Pure-Touch Pump
35367	8 oz. Bottle, One-Touch Pump
