

TASK LIGHTING FOR MEDICAL FACILITIES

MLS/ MLY/ MLC

MLY 100

MLS 150

MLC on 50036

Models are used in general-purpose settings and as supplementary task lighting in patient rooms.

- MLY - 5 5/8" diameter shade with a specular, dimpled reflector designed to maximize and focus light output
- MLS - 8 1/8" diameter shade; 5-ring louver eliminates glare and protects against accidental touching of bulb or bulb breakage
- MLC - 9 1/2" diameter shade with inner reflector; 6-ring louver eliminates glare and protects against bulb breakage and lamp glare; three way switch
- 13", 18", or 5' cord length options
- Low maintenance and operational costs
- Edge clamp, wall bracket, double gang box, surface mount and floor stand sold separately
- 20-gauge, CRS arms with 0.5" square tubing to provide durability and long life
- Internal tempered steel springs, mounted inside arm tubes, assure proper balance and ease of movement
- 45" or extended 50" spring-balanced steel arm for ease of positioning available
- Models 100, 100S, 150 and 150S ideal for wall mounting and vertical movement
- Full range of motion arm makes Model 145 appropriate for floor stand or edge clamp mounting
- Color: Light gray
- Parallel motion arm for glare control - precisely directed light
