

QR/P8 SERIES

Ultra-small Rectangular Multi-electrode solderless Connectors
for Rack and Panel Applications

General

QR/P8 Series is a series of small connectors for rack and panel application. This is a smaller-size version of the QR/P and QR/P1 Series, whose rectangular multi-electrode plug in connectors for racks and

panels have been well received in the market. Three different electrode numbers are available: 8, 12 and 20. Wires are connected to the connectors without solder, for easier connection and higher reliability.

Features

- (1) The connector of this series is about 20% smaller in length than of the QR/P4 Series with the same number of electrodes.
- (2) Two pairs of electrodes on two sides have a pitch of 5.3 mm at the reinforcement of the housing guide pins, making the connector size smaller and enabling the connector to withstand high voltages. These electrodes therefore can be used for power supply. The terminals for signals have a pitch of 2 mm.
- (3) Wires of AWG # 20 – 28 can be connected with the two pairs of terminals on the two sides, while wires of AWG # 24 – 28 can be connected with the terminals for signals.
- (4) The pins give stable contact pressure because of their point contact with the receptacle blades, and have a larger allowance for the variation of connection length — a characteristic of plug-in connectors.
- (5) The guide pins and the housing body are moulded as one piece to achieve a smaller connector size.
- (6) Since the connectors are mounted on racks or panels with stepped screws, connection and disconnection can be done easily.
- (7) The connectors of this series have passed UL, CSA and TÜV standards.

Application

PPC, Transmission and reception equipment, Data Communication, Vending Machine, Measuring Instruments, Automatic Equipment, Switchboards, etc.

Specifications

Main Specifications		
Contact resistance	30mΩ or less at DC1A	
Insulation resistance	1000MΩ or less at DC 500V	
Withstand voltage (for 1 min.)	Power supply	AC 2000V
	Signal unit	AC 500V

Item	Material	Finish
Insulator	Polycarbonate resin UL94V-0	Black
Contact	Phosphor Bronze	Selective Gold plated over Nickel

Material and Finish

QR/P8 ratings approved by safety standards					
Safety standard		UL,CSA	TÜV		
Operating temperature range		-10~+60°C			
Voltage rating	Power supply	AC 300V	AC 380V		
	Signal unit	AC 30V	AC 30V		
Rated current	AWG# 20	3A	2.5A		
	AWG# 22	3A	2.5A		
	AWG# 24	Power unit	2A	2.5A	
		Signal unit	2A	1A	
	AWG# 26	1A	1A		
AWG# 28	1A	1A
