

- Central office or remote applications
- Suitable for 8mbps/800kbps ADSL applications
- Designed to meet IEC-950 isolation and insulation requirements
- Meets ANSI T1.413 Issue 2, Category 1&2, and ITU G.Lite standards
- Designed to optimize performance with the TI TNETD3000C/P, TNET4000R, TNET5000 series chipsets
- Designed to interface with line drivers THS6002, 6012, 6022, and line receiver THS6062
- UL94V-0 materials
- ISO 9001 certified supplier
- UL/BABT Safety Agency Approvals

Specifications

Parts availability subject to Schott manufacturing schedules and leadtimes. Not all parts available from stock. Please contact us for more details and availability. The Adobe Acrobat Reader is required to view these linked documents.

Electrical Specifications Test Criteria

1. These transformers are designed for operating within a temperature range of -40°C to +85°C. All electrical characteristics are reported for operating at 25°C.
2. Inductance is measured at 10 kHz, 0.1 Vrms, leakage inductance at 100 kHz, 0.1 Vrms.
3. */**Designed to meet UL 1950/EN60950 isolation and insulation requirements. (See notes 5 & 6 below)
4. For complete parameters of components listed above, request individual specification sheets.
5. 33817, 32824, 32828 have UL1950 approval at 120 Vrms, 200Vpk/s, and BABT EN60950 approval at 250 Vrms.
6. 33818, 35625, 36539, 36313, 37039 have UL1950/EN60950/BABT approval at 250 Vrms and are recommended for new designs.
7. Safety Agency approval is pending. Recommended for new designs.
